About Stamford’s Everyday Democracy Coalition

A small but committed group of local community members with a purpose: *Stamford’s Everyday Democracy works to address racial inequities in the city. We will achieve this through a series of dialogues to identify inequities and build relationships among neighbors. We will take actions that lead to shared power and resources that improve our community.*

About Everyday Democracy

Based in Hartford, Connecticut, Everyday Democracy helps people and organizations build capacity to engage communities in creating change.
